

# 水 利 学 报

SHUILI XUEBAO

第 55 卷      2024 年      第 7 期 (月刊)

## 目 次

|                                          |                               |
|------------------------------------------|-------------------------------|
| 基于微震特征参数的秦岭隧洞岩爆实时预测模型 .....              | 胡 晶 刘 慎 陈祖煜 (757)             |
| 混合式抽水蓄能电站群容量计算研究 I :短期调峰特征与梯级开发增益 .....  |                               |
| ..... 郭爱军 畅建霞 王义民 王学斌 孙晓强 (768)          |                               |
| 基于大场景视频监控的坝面施工机械潜在碰撞风险预警方法 .....         |                               |
| ..... 曾拓程 王佳俊 钟登华 张雨诺 康 栋 (780)          |                               |
| 黄河下游平滩流量的模拟方法 .....                      | 吴保生 沈 逸 马子普 郑 珊 (791)         |
| 红壤坡地果园产流产沙及氮磷流失对坡面水土保持措施的响应 .....        |                               |
| ..... 伍冰晨 陈晓安 汤崇军 胡译水 蔡袁海 徐晓晗 (802)      |                               |
| 考虑温度对静止土压力 $K_0$ 系数影响的统一硬化本构模型 .....     | 孔令明 李自广 张海兵 (815)             |
| 大型岔管内螺旋流涡带数值分析研究 .....                   | 申 艳 姜姿云 杨 利 宋蕊香 王 薇 郭 苗 (827) |
| 吸入涡形成机理及其对离心泵性能的影响 .....                 |                               |
| ..... 高慕滢 冯建军 樊 丞 朱国俊 王李科 李晨昊 (838)      |                               |
| 复杂条件下高面板堆石坝的特殊结构体安全监测设计体系研究 .....        |                               |
| ..... 马春辉 陆 希 贾冬焱 周 恒 张 群 杨 杰 (848)      |                               |
| TSMSE 结合 IOOA-BiLSTM 的水电机组轴系故障诊断方法 ..... |                               |
| ..... 张兼博 李 想 曾 云 唐跨纪 (862)              |                               |
| 水质保护与用水效率的主从博弈稳健优化模型及其应用 .....           | 贾晓琳 付 湘 张 翔 范志鹏 (874)         |

# JOURNAL OF HYDRAULIC ENGINEERING

Vol . 55 No . 7 2024

( Monthly )

## CONTENTS

|                                                                                                                                                                  |                                                                                   |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|
| A real-time rockburst prediction model for Qinling Tunnel based on the characteristic parameters of microseismic monitoring .....                                | HU Jing LIU Shen CHEN Zuyu(757)                                                   |
| Research on capacity computation of cascade on-stream integral pumped storage hydropower plants I :short-term peak shaving and gain of cascade development ..... | ..... GUO Aijun CHANG Jianxia WANG Yimin WANG Xuebin SUN Xiaoqiang(768)           |
| An early warning method for potential collision risk of dam surface construction machinery based on large scene video surveillance .....                         | ..... ZENG Tuocheng WANG Jiajun ZHONG Denghua ZHANG Yunuo KANG Dong(780)          |
| Simulation methods of bankfull discharge in the Lower Yellow River .....                                                                                         | ..... WU Baosheng SHEN Yi MA Zipu ZHENG Shan(791)                                 |
| Response of runoff and sediment yield and nitrogen and phosphorus loss to soil and water conservation measures in orchards of red soil slope .....               | ..... WU Bingchen CHEN Xiaoan TANG Chongjun HU Yishui CAI Yuanhai XU Xiaohan(802) |
| Unified hardening constitutive model considering the influence of temperature on $K_0$ coefficient .....                                                         | ..... KONG Lingming LI Ziguang ZHANG Haibing(815)                                 |
| Numerical analysis of the spiral vortex ropes within a large bifurcated pipe .....                                                                               | ..... SHEN Yan JIANG Ziyun YANG Li SONG Ruixiang WANG Wei GUO Miao(827)           |
| Formation mechanism of suction vortex and its influence on the performance of centrifugal pumps .....                                                            | ..... GAO Luhan FENG Jianjun FAN Cheng ZHU Guojun WANG Like LI Chenhao(838)       |
| Research on safety monitoring design system for special structures of high concrete face rockfill dams under complex conditions .....                            | ..... MA Chunhui LU Xi JIA Dongyan ZHOU Heng ZHANG Qun YANG Jie(848)              |
| TSMSE combined with IOOA-BILSTM for the fault diagnosis method of hydropower unit shafting .....                                                                 | ..... ZHANG Jianbo LI Xiang ZENG Yun TANG Kuaji(862)                              |
| Stackelberg game robust optimization model for water quality protection and water resource utilization and its application .....                                 | ..... JIA Xiaolin FU Xiang ZHANG Xiang FAN Zhipeng(874)                           |
